SUMMARY

Full Stack Web Developer with a background in Business Management and Sales. I have recently completed The Full Stack Web Development bootcamp offered through the University of Oregon. It has allowed me to develop technical skills in JavaScript, CSS and HTML. Throughout this bootcamp I have been able to advance my Technical skills and create PWA (Progressive Web Applications) and other apps using Node.js, React, GraphQL, MongoBD, MySQL. NoSQL, and MERN (MongoDB, Express.js, React, Node.js). I am a critical thinker who pays attention to detail and adds excitement and creativity to everything I do. Because of my love for math, I enjoy problem solving, debugging, modularizing and providing solutions or insight to others. I work well in a team and can naturally guide a team to success, I also excel on my own and enjoy a good challenge of my strengths and weaknesses. I have found my passion as a full stack web developer and am excited to work in an environment that challenges me everyday. I am here to overcome company obstacles and create a more profitable and sustainable work environment as a full stack web developer.

TECHNICAL SKILLS

HTML, CSS, GitHub, Heroku, JavaScript, APIs, Node.js Object-Oriented Programming, Express.js, SQL, Object-Relational-Mapping (ORM), Model-View-Controller (MVC), Computer Science for JavaScript, NoSQL, MongoDB, Sequelize, Bootstrap, Tailwind, Express, Handlebars, jQuery, JSON, AJAX, command line, writing test, refactoring code, modularizing code, debugging.

- CSS, JavaScript, Handlebars, (MVC), JAWSDB, SQL, Sequelize, Express

Your Portland Itinerary | https://github.com/JosephJamesCoop/your-portland-itinerary/ https://josephjamescoop.github.io/your-portland-itinerary/
- Recipe based website allowing users to filter, find and post allergy friendly recipes.
- Controllers, Handlebars, CSS, login / logout, Allergy filtering
- CSS, JavaScript, Handlebars, (MVC), JAWSDB, SQL, Sequelize, Express

EXPERIENCE

Specialty Sales Manager   2015– Current
Best Buy   Portland,OR
I oversaw, trained and developed over 100 employees and more than 10 supervisors in my tenure. I communicated and collaborated with other leaders to implement new plans and follow up on work, as well as ensure goals of my team and store were continually met and exceeded. I

adapted and excelled in the ever changing direction as we adapted to an online world vs in store relations and capitalized on both areas.
Key Accomplishments:
- Yellow Brick Road to Success business plan.
